OBJECTIVE

Dedicated and motivated entry-level iOS developer with a strong foundation in iOS app development and a passion for creating user-friendly, responsive, and innovative applications. Seeking an opportunity to contribute to a dynamic development team and further enhance my skills in iOS development.

PROJECTS

1. MyChats App (iOS, Swift)

- Developed a messaging app using Swift and UIKit.
- Register and Login using Firebase Firestore Database
- Utilized, CocoaPods and Swift Package Manager for user-friendly UI.

2. Clima Weather app (iOS, Swift)

- Created a weather app using Objective-C.
- Integrated with a weather API to fetch and display weather data.
- Designed a user-friendly interface with responsive layouts.

3. Portfolio Website (Personal Project)

- Developed a responsive portfolio website to showcase personal projects and skills.
- Used React.js, Node.js, and Express.js to create a dynamic and visually appealing website.

WORK EXPERIENCE

CUSTOMER EXPERIENCE MANAGER (REMOTE)

Carzato | April, 2020 - Current

- Manage over 500 car dealership digital retail accounts
- Facilitate implementation checks of software to report any bugs or broken links and testing features
- Schedule monthly meetings and conduct high level presentations for potential clients

GENERAL OPERATIONS MANAGER

Banana Republic | Hudson Yards, NY | 2016 - 2020

- Facilitate on-boarding orientations, store walk through and Ipad POS training for incoming employees
- Collaborated with Regional Sales Managers weekly to target of KPIs and stronger synergy amongst the team.
